Pursuant to the provisions of Section 2908 of the Police Code, the Director of Public Works having determined that the kind of work to be done will cause less traffic safety problems at night than during the daytime, and is in the general public interest, hereby grants permission, revocable at his will, to work at night at the following location(s):

Build Group, Inc.

Name: Build Group, Inc.

MANDATORY COORDINATION WITH CONFLICTING PERMITS IS REQUIRED. PERMIT HOLDER SHALL NOT COMMENCE WORK WITHOUT FIRST PROPERLY COORDINATING WITH EXISTING PERMIT HOLDERS AS NOTED ON THE EXCEPTION PAGE(S) OF THIS PERMIT. IF THIS PERMIT CONFLICTS WITH A CITY PROJECT OR OTHER APPROVED PERMIT, THE PERMIT HOLDER OF THIS PERMIT SHALL BE RESPONSIBLE FOR THE PROPER COORDINATION AND EVALUATION OF THE SITE PRIOR TO COMMENCING WORK.
Conditions

This permit is associated with 19TOC-00841. Permittee shall comply with all the conditions of this permit and 19TOC-00841.

Permit Holder shall:
Monitor the night noise with appropriate monitoring equipment and maintain an hourly decibel sound level log.
Provide a copy of the log to bsmpermitdivision@sfdpw.org, jonathan.vaing@sfdpw.org, and Jessica.salamy@sfdpw.org.
Maintain a night noise complaint log for the duration of construction activity and bring to the attention of the Public Works Inspector(s). If complaints can be mitigated, the permit holder shall take the appropriate mitigation measures and follow instruction of the Public Works Inspector(s) if needed.
Maintain a hard copy of the approved night noise permit or referral at the construction site at all times. Where possible and while ensuring all Cal/OSHA requirements are being met, the permit holder shall:
Install mufflers, shrouds, and/or other sound-control attachments on all applicable construction equipment or use rental construction equipment which is already equipped with mufflers, shrouds, and/or sound-control attachments that reduce engine and operation noise.
Not utilize equipment on the site which is not equipped with mufflers, shrouds, and/or other sound control attachments.
Use flagmen or other warning methods in accordance with the California Code of Regulations, Title 8, Section 1592 instead of backup beepers for the hours between 10PM – 7AM.
Use electric-powered rather than diesel-powered construction equipment.
Ensure generators and compressors used at the job site are acoustically shrouded or shielded.
For Work occurring after 10PM, the following shall apply:
No high-impact and/or pneumatic tools and equipment shall be used.
All excavation work shall be done with the use of hand tools.

REQUIREMENTS

The permittee shall notify the occupants of the buildings in the vicinity of the proposed night work.

The permittee shall obtain any other required permits.

HOLD HARMLESS CLAUSE

In consideration of this Permit being issued for the work described in the application, Permittee on its behalf and that of any successor or assign, and on behalf of any lessee, promises and agrees to perform all the terms of this Permit and to comply with all applicable laws, ordinances and regulations.

Permittee agrees on its behalf and that of any successor or assign to hold harmless, defend, and indemnify the City and County of San Francisco, including, without limitation, each of its commissions, departments, officers, agents and employees (hereinafter collectively referred to as the "City") from and against any and all losses, liabilities, expenses, claims, demands, injuries, damages, fines, penalties, costs or judgments including, without limitation, attorneys' fees and costs (collectively, "claims") of any kind allegedly arising directly or indirectly from (i) any act by, omission by, or negligence of, Permittee or its subcontractors, or the officers, agents, or employees of either, while engaged in the performance of the work authorized by this Permit, or while in or about the property subject to this Permit for any reason connected in any way whatsoever with the performance of the work authorized by this Permit, or allegedly resulting directly or indirectly from the maintenance or installation of any equipment, facilities or structures authorized under this Permit, (ii) any accident or injury to any contractor or subcontractor, or any officer, agent, or employee of either of them, while engaged in the performance of the work authorized by this Permit, or while in or about the property, for any reason connected with the performance of the work authorized by this Permit, or arising from liens or claims for services rendered or labor or materials furnished in or for the performance of the work authorized by this Permit, (iii) injuries or damages to real or personal property, good will, and persons in, upon or in any way allegedly connected with the work authorized by this Permit from any cause or claims arising at any time, and (iv) any release or discharge, or threatened release or discharge, of any hazardous material caused or allowed by Permittee in, under, on or about the property subject to this Permit or into the environment. As used herein, "hazardous material" means any substance, waste or material which, because of its quantity, concentration of physical or chemical characteristics is deemed by any federal, state, or local governmental authority to pose a present or potential hazard to human health or safety or to the environment.

Permittee must hold harmless, indemnify and defend the City regardless of the alleged negligence of the City or any other party, except only for claims resulting directly from the sole negligence or willful misconduct of the City. Permittee specifically acknowledges and agrees that it has an immediate and independent obligation to defend the City from any claim which actually or potentially falls within this indemnity provision, even if the allegations are or may be groundless, false or fraudulent, which obligation arises at the time such claim is tendered to Permittee by the City and continues at all times thereafter. Permittee agrees that the indemnification obligations assumed under this Permit shall survive expiration of the Permit or completion of work.

Permittee shall obtain and maintain through the terms of this Permit general liability, automobile liability or workers' compensation insurance as the City deems necessary to protect the City against claims for damages for personal injury, accidental death and property damage allegedly arising from any work done under this Permit. Such insurance shall in no way limit Permittee's indemnity hereunder. Certificates of insurance, in form and with insurers satisfactory to the City, evidencing all coverages above shall be furnished to the City before commencing any operations under this Permit, with complete copies of policies furnished promptly upon City request.
